

June 25, 2003

Dear Valued Client:

Last October, we at Robert Slye Electronics, Inc held a Technology Showcase in what was then our newly built installation and warehouse building. The event showcased our beautiful new addition as well as a limited number of the vendors with whom we work on a daily basis. The event was a huge success and everyone who attended raved about the food, the facility and the equipment we featured.

We were so pleased with the event that we have decided to have a second Technology Showcase this October 2, 2003. This year the Technology Showcase will be held, not at our headquarters, but near where we are located in Arlington, Virginia. It is a beautiful location which we have used in the past for demonstrations of projectors and screens too large for display in our office. The room is expansive, providing us with much more space than was available last year.

We would like to invite you and your company to come to our showcase this year. We also would like to invite you to bring colleagues, friends, clients or potential clients who would be interested in seeing digital media systems in action. We want to focus on allowing our valued clientele to see the equipment as it is meant to be used, rather than as stand-alone pieces. Thus, we are creating a series of working venues throughout the space, with each venue focusing on a different aspect of the systems we provide. From a video teleconferencing space, to a training room, each space is being designed to show off the amazing technology we utilize to create state-of-the-art digital media systems.

To help guide clients through each venue we will have the manufacturers of each piece of equipment on hand as well as knowledgeable colleagues who use systems similar to the ones we will feature. Our hope is that you will benefit from our expertise as well as that of our colleagues so that you may learn more about digital media systems. If you already have a system, whether large or small, we believe we can teach you new ways to utilize the system you already have.

In the next few months we will be releasing more information about the event. We have developed this website <http://www.slye.com/TechShowCase03/> which we will update on a regular basis to provide you with the most up to date information about this Showcase. Through this website, you will be able to find answers to your questions, information and pictures from last year, as well as a list of our colleagues who will attend and much more.

We hope that you will be able to attend to our 2003 Technology Showcase. Please return the RSVP Card, or RSVP through the website at <http://www.slye.com/TechShowCase03/RSVP/> by September 19, 2003 so that we know whether or not we will see you on October 2, 2003!

Sincerely,

The Slye Showcase Staff
